

CIC-IPN Chapter

CICLing-2006

7th International Conference on Intelligent Text Processing and Computational Linguistics

February 19–25, 2006

Mexico City, Mexico

Lecture Notes in Computer Science, Springer-Verlag

Endorsed by the Association for Computational Linguistics

Deadline: Abstract: **October 17**, paper: **October 24**
(first an abstract must be submitted, later the corresponding paper)
Modalities: full paper: 12 pages, short paper: 4 pages

Keynote speakers: **4 speakers to be announced**, see www.CICLing.org

Excursions: Ancient pyramids, Monarch butterflies, huge cave, and more

Info: www.CICLing.org, contact: gelbukh@CICLing.org

Areas of interest

Computational linguistics research:

- Comp. Linguistics theories and formalisms
- Knowledge representation
- Comp. morphology, syntax, semantics
- Discourse models
- Machine translation, text generation
- Statistical methods, corpus linguistics
- Lexical resources

Intelligent text processing and applications:

- Information retrieval, question answering
- Information extraction
- Text mining
- Document categorization and clustering
- Automatic summarization
- Natural language interfaces
- Spell-checking

and all related topics
