

20th International Conference on

Intelligent Text Processing and Computational Linguistics

www.CICLing.org / 2019 • France

April 7-13 • La Rochelle, France • Springer LNCS + journals

Keynotes: four keynote speakers to be announced

Three full-day tours

Computational linguistics:

- Comp. linguistics theories & formalisms
- Knowledge representation. Deep learning
- Comput. morphology, syntax, semantics
- Discourse models; textual entailment
- Word sense disambiguation; anaphora
- Machine translation, text generation
- Statistical methods; lexical resources

Intelligent text processing and applications:

- Opinion mining and sentiment analysis
 - Information retrieval; question answering
 - Information extraction. Text mining
 - Document categorization and clustering
 - NL interfaces; spellcheck
 - Automatic summarization
- and all related topics
